EXPERIENCE

Software Developer Ipshopy Pvt. Ltd.

Chh. Sambhajinagar, Maharashtra
Dec 2025 – Present

E-commerce platform providing end-to-end online shopping and catalog management solutions.

- **Architected** scalable product attribute system with 1000+ attributes across 80+ categories, enabling flexible catalog configuration.
- **Migrated** media storage from cPanel to Azure, refactoring all image-handling logic across the admin panel with zero downtime.
- **Designed** dynamic admin workflows for category - attribute mapping and variant configuration via schema-driven APIs.
- **Built** a contact Us system, automated SMTP confirmations for inquiries and direct sales-pipeline routing for call requests.
- **Engineered** custom OpenCart admin panel for sales teams to manage incoming call leads, tracking status and automating logs.
- **Integrated** AI content generation using Ollama to auto-create SEO articles, achieving 90% reduction in manual content effort.

Tech Stack: React, Next.js, PHP, REST APIs, MySQL, OpenCart, Ollama LLM.

Python Developer Intern Infosys Springboard

Dec 2024 – Feb 2025
Remote

Industry-led internship by Infosys focused on real-world software development, system design, and Agile workflows.

- **Led** a 6-member Agile team as Scrum Master, achieving 100% sprint goal completion across all delivery cycles.
- **Developed and deployed** RESTful APIs with Flask to enable real-time courier status updates and tracking.
- **Built** backend data pipelines for courier tracking and analytics dashboards, improving operational visibility.
- **Implemented** a secure issue reporting system with traceability logs, reducing unresolved feedback turnaround time.

Tech Stack: Python, Flask, REST APIs, SQLAlchemy, Agile/Scrum.

PROJECTS

ShortFast - Distributed URL Shortener | [LINK](#) Scalable Full Stack Web Application

Feb 2026 – April 2026

- **Built** production-grade URL shortener with Redis caching layer achieving <10ms redirect latency and 90% cache hit rate.
- **Designed** RESTful API architecture handling URL creation, analytics, and QR code generation, implementing cache-aside pattern.
- **Deployed** cloud-based app using Render, Vercel, PostgreSQL, and Redis, enabling scalable APIs and low-latency data access
- **Implemented** automatic QR code generation with Base64 encoding, enabling instant mobile sharing without additional API calls

Tech Stack: Node.js, Express, React, PostgreSQL, Redis.

Realtime Dead Code Detector | [LINK](#) Developer Observability Tool

May 2026 – Ongoing

- **Built** a runtime dead-code detection system tracking live API calls and DB queries without modifying application logic.
- **Designed** a confidence-scoring engine classifying endpoints/tables as Active, Warn, or Dead with up to 97% accuracy.
- **Bypassed** manual instrumentation by hooking into SQLAlchemy event listeners to extract table usage from SQL queries at runtime.

E-Grievance Redressal System | [LINK](#) Full Stack Web Application

Nov 2025 – Dec 2025

- **Developed** a grievance platform with role-separated admin and user portals for streamlined issue resolution.
- **Implemented** multi-user authentication with role-based access control (RBAC) and secure session management.
- **Integrated** a Leaflet-based heatmap to visualize regional complaint density, supporting faster admin decision-making.
- **Structured** backend endpoints in Flask to handle complaint intake, status updates, and admin-facing reports.

Tech Stack: React, Python, Flask, SQLite, Bootstrap.

EDUCATION

Mahatma Gandhi Mission University

Bachelor of Technology (B.Tech) in Information Technology | CGPA: 8.2/10

Chh. Sambhajinagar, Maharashtra
Aug 2022 – May 2026

TECHNICAL SKILLS

Languages: Python, Java, C, JavaScript, SQL

Frontend: React, Next.js, HTML5, CSS, Tailwind CSS

Backend & APIs: Node.js, Express.js, Flask, FastAPI, RESTful APIs

Databases: MySQL, PostgreSQL, SQLite, Redis

Cloud & DevOps: Git, GitHub, Vercel, Render, Postman

CS Fundamentals: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), Operating Systems, Computer Networks, Database Management System (DBMS)
